The Distance Learning Program of Massillon Baptist College makes it possible for the student to study at home while working around his or her own personal schedule. The study materials are designed to help the student successfully complete the course in a timely manner.

Enrollment in the Distance Learning Program may be initiated at any time. These courses are not bound by the semester structure of the on-campus programs. It is however, expected that students plan to complete a course in 110 days from the time of receiving their course work. A final grade of C- (78%) or higher is needed to receive credit.

Distance Learning courses are offered on an institute (non-credit) or full credit basis. Each course is designed to carry the same weight and credibility as on-campus classes. All credits can be applied to any degree program offered by MBC.

Currently, a student may not earn a degree solely on Distance Learning courses. We are, however, working to that end.

Massillon Baptist College...

~~ An established reputation for over 38 years.
